

PREMO®

The Swiss terminal boar for best meat quality & health

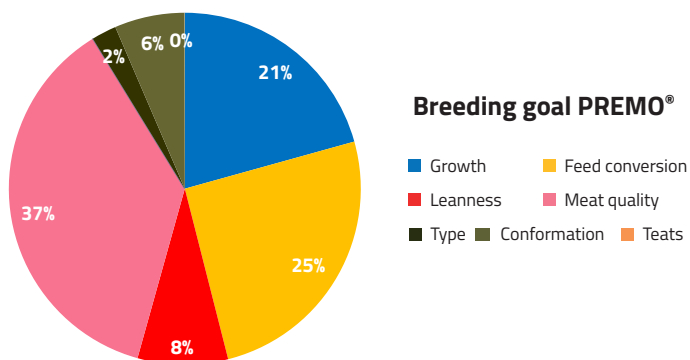

Special strengths of the PREMO®

- ✓ Excellent meat quality
- ✓ Optimum intramuscular fat content
- ✓ Lowest drip loss
- ✓ Pure-bred stress-resistant (N/N)
- ✓ High daily gain, very good feed conversion
- ✓ Optimum conformation (MFA) for the Swiss market
- ✓ All boars homozygous E.coli F18 and E.coli F4 resistant

Balanced genetic gains through modern and consistent breeding work

- ✓ Autonomous breeding program at Switzerland
- ✓ Intensive and comprehensive performance testing on breeding farms, testing station and slaughterhouses
- ✓ Several meat quality traits in the breeding objective
- ✓ 2.000 genotyped breeding candidates per year
- ✓ Strict and well-founded selection of AI boars on the basis of genomically optimised breeding values

Average performance of finishing pigs from different sires

	Breed sire	PREMO®	Duroc	Piéttrain
Testing station	Number of fattening pigs	157	198	191
	Daily gain (g/day)	1031	1038	971
	Feed conversion	2.38	2.49	2.45
	Intramuscular fat (%)	2.36	2.42	1.78
	Drip loss (%)	2.53	3.22	3.48
	Meat measurement (mm)	56.9	56.6	59.5
Slaughter-house data	Number of fattening pigs	1034	1571	1280
	Daily gain (g/day)	659	658	634
	Lean meat percentage (%)	57.4	56.5	57.5

Swiss PREMO® available for you

PREMO® boars are bred at Switzerland on several breeding farms with a high health status (e.g. no mycoplasma, Switzerland officially free of PRRS).

Semen from Swiss PREMO® boars is available at SUISAG and at German AI stations.

PREMO® boars are available from Swiss breeding farms via SUISAG.

ANY QUESTIONS?

We are happy to advise and inform you in detail about our genetics
